

Professional Development Seminar

Tuesday, 28 March 2023

18:00-20:00, LR8.3, 8th Floor (Sofou Bldg)

Voice Biometrics Technology and Delivery

Mr. Nikos Gavalas

Senior Delivery Manager in Omilia

In theory Voice Biometrics is the science of using a person's voice as a uniquely identifying biological characteristic in order to authenticate them. Using AI and IT delivery methods, Voice Biometrics Technology is a reality used for speaker-identification purposes in various business, ranging from Banks' call centers to crime investigation agencies, to identify speakers' reliably and authenticity based on their voice.

- Participation is compulsory for Level 3 CS students
- Upon completion of the seminar series, certificates will be provided to attendees
