The Role of IT for Effective Logistics & Operations at LIDL

Speaker: Mr. Spiros Karasavvidis

Executive, Team Lead, IT Infrastructure Management
LIDL HELLAS & SIA O.E.

Date: **Tuesday, 7th November 2017**

Time: **20:00 - 22:00**

Venue: **L3-L4**

Overview

IT systems provide the core backbone of nowadays organizations in terms of ensuring efficient logistics and operations. This guest lecture will start by presenting LIDL from an HR perspective, then a general presentation of IT systems for efficient logistics operations will follow, and lastly, the case of e-grocery services will be discussed in order to provide a hands-on example. A Q&A session will follow and will give the audience the opportunity to receive insights directly from industry expertise.

In the context of CBE6102 **Operations & Management** unit.

Mandatory for **MSc in Management** (All Tracks)
Full Time & 2nd Year P.T. students.

Open to **MANENG3a**.
